

Cambodian Education Excellence Foundation

Letter from the President

Dear friends and supporters,

This month we celebrate both the CEE Foundation's second anniversary and the Cambodian New Year, the year of the Ox, Buddhist Era 2553. I would like to wish you all a joyous Cambodian holiday season and a prosperous year of the Ox.

During the past two years, we have received contributions and support from both private citizen and non-profit organizations, such as Angkor Association (VA), Association des Anciens Elèves de l'Institut de Technologie du Cambodge (France), Cambodian American for Human Rights and Democracy (VA), Cambodian Buddhist Society, Inc. (MD), Cambodian Community Day (VA), Fondation Enfants Cambodgiens (Canada), and Friends of Lycée Sisowath. On behalf of the poor Cambodian students, I would like to express my sincere gratitude to all the benefactors, near and far.

With your support and generosity, we were able to expand the scholarship awards from 30 students, for 2007-2008, to 130 students for the school year 2008-2009, allowing them to continue higher education at 23 universities in Phnom Penh, Battambang, and Takeo. We provided financial grants to support an English learning program at Ek Phnom high school in the province of Battambang. Also, in 2008, we financed the purchases of furniture and books for a library at Phoum Svay primary school in Banteay Meanchey, as well as the digging of a well within the school compound.

Our ongoing and future projects include the setting up of a computer lab at the Institute of Technology of Cambodia in Phnom Penh; an eco-friendly computer lab at Watt Po Meanchey school in Siem Reap; and a computer lab at Russey Chroy school in Kandal. We would like also to expand the number of scholarship awards if funds would permit. Let's hope the year of the Ox will be another great year for CEE Foundation.

On behalf of the Board of directors and executive officers, I would like to wish you and your families much happiness, prosperity, good health, and success. May Buddha's Blessings of Longevity, Beauty, Health, Strength, and Wisdom be with you and yours throughout the New Year and beyond!

Happy New Year!

Samrang Kchao, M.D.

Briefs 2008-2009

Computer Literacy Night Philadelphia, Pennsylvania March 7, 2009

By Chantal Peou

Good evening,

My name is Chantal Peou, and as the Chairperson for tonight's CEE Foundation Philly fundraiser, I would like to welcome everyone and thank you for being here tonight. I would like to express a special thanks to the members of various associations from the Philadelphia area who are joining us tonight, and most especially Mr. Vanna Nguon, President of the Cambodian American Senior Association, Ms. Cindy Suy and Mr. Rong Sorn, Directors of Operations at the Cambodian Association of Greater Philadelphia, and the members of the SEPA Fam Cam and their beautiful children. To all, in the midst of a troubled economy, your support could not have come at a better time.

We are here tonight, to celebrate "Computer Literacy Night", because, at the CEE Foundation, we believe that in addition to encouraging and enabling access to higher education, it is equally important to equip Cambodia with a future in Information Technology (also known as IT).

IT is the super highway and the backbone of an industrialized country, and it plays an important role in nations' economies and social activities. Without it, a country stays behind. IT increases efficiency, improves the quantity of information to have access to, it broadens general and specialized knowledge, and it increases productivity. Even on a personal level, can you imagine your daily life without a personal computer? Now, imagine an entire nation lacking access to computers!

Modernizing Cambodia is primordial. It is a well known fact that there is a huge economic gap between industrialized countries having access to IT and poor countries, which have a very limited access to it. Consequently, in order for Cambodia to become more competitive with the rest of the world, it is primordial to fill in the existing technology gap.

Embarking on the IT adventure is feasible, because it is a domain relatively new, evolving every day, and for which there is no handicap in starting later than other countries. Even if other countries in Asia are currently more advanced in the IT field, Cambodia can still quickly catch up on, perform and become as qualified as countries such as China and India, BUT only if provided with the proper tools and training.

The Institute of Technology of Cambodia (ITC), located in Phnom Penh, is currently the only place in Cambodia offering a solid higher education in Information Technology. However, ITC is currently lacking the state of the art computer training center to prepare students adequately. And as you know, Cambodia is a country with a young population demonstrating an enormous intellectual potential and a lot of energy, ready to learn the new technology. Without providing those youths with the proper tools and training, Cambodia will not be able to compete with the rest of the world.

On behalf of the CEE Foundation, the ITC and the students, I would like to thank you all for your valuable donations. From your generosity we can build a bridge between those youths eager to learn new skills and the Cambodian IT of tomorrow.

Ladies and gentlemen, on behalf of the CEE Foundation, I thank you again for your presence and support, and I wish you a wonderful evening!

Note: The total number of scholarship awards (130) is based on the First Disbursement Request Forms issued by the VP Administration (Ben Bao) and approved by the VP Finance (Serey Kiman). All averages are calculated based on available data only.

(*) The scholarship amounts are on commitment basis and disbursed in two equal installments. The second installment is contingent upon satisfactory academic performance during the first semester of study.

(**) A renewal student, Heng Phanith – graduated in 2007 from Phni Meas High School, Takeo province – has received a scholarship to study Computer Science in Thailand in June 2008. Due to ongoing border problems between Cambodia and Thailand, this student has serious financial difficulties while continuing his study in Thailand. On an exceptional basis, the Selecting Committee agreed to renew his scholarship award for the school year 2008-2009.
